

Star Gaze Hawaii offers a guided tour of the sky from various Resorts on the Kohala Coast. Scheduled locations are listed on the back. Reservations are required. View with your own eyes, Galaxies, Star Clusters, Nebulae, Double stars, and Planets with our Celestron 11-inch Telescopes. The Celestron 11 Telescope collects 1,600x more light than the human eye. We use premium eyepieces for maximum contrast and sharpness. Our telescopes are meticulously maintained for best optical performance. We routinely view galaxies that are millions of light years away.

Sundays and Wednesdays:
Hapuna Beach Prince Hotel. Reservations: (808) 880-1111 ask for Front Desk, 8:00 PM to 9:00 PM, Courtyard or Kona Lanai at the Coast Grille.
