

Star Gaze Hawaii for Wedding Planners

For a unique wedding activity, consider Stargazing.

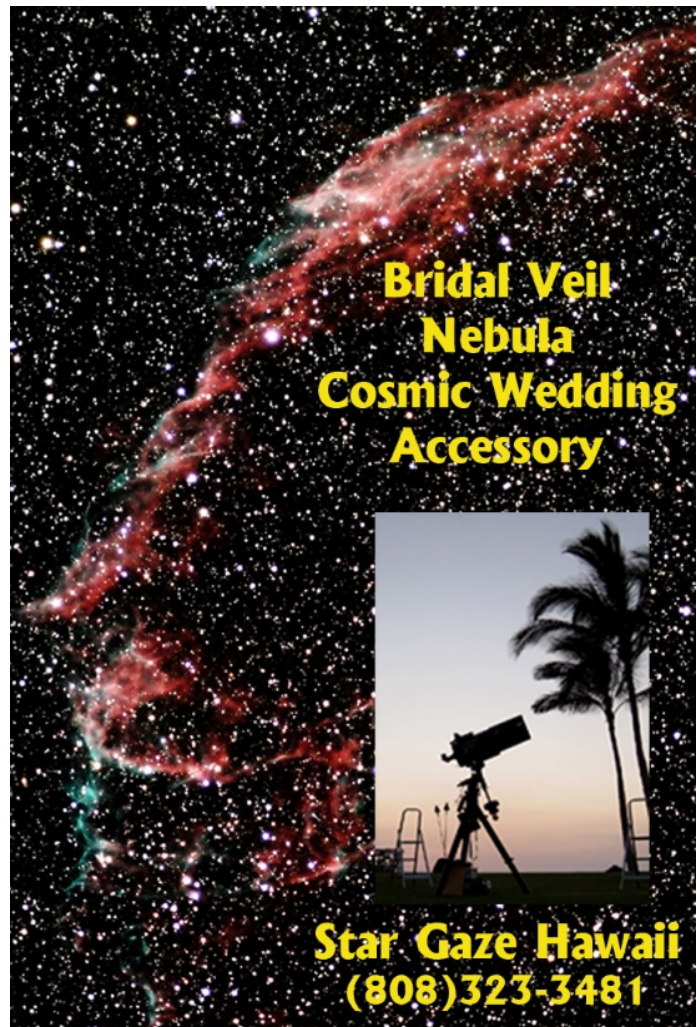

If your wedding Reception venue has wide open skies and it will be dark, imagine the awe and wonder of exploring the Universe. Hawaiian skies are wondrous to the uninitiated. City Dwellers are largely unaware of the stars and planets above them. Seeing Jupiter, Saturn or the Moon up close brings a universal thrill.

If the bride and groom have a passing interest in space, this would be a far reaching way to enhance their wedding night reception. Star Gaze Hawaii has been performing at wedding receptions for many years. See our Trip Advisor feedback for a relevant review.
